

IT Geeks — Company Overview

IT Geeks is a **technology and digital services company** focused primarily on e-commerce solutions, with a strong specialty in **Shopify development and related digital services**. The company is headquartered in **Salt Lake City, Utah, United States** and operates globally supporting brands of all sizes. [IT Geeks+1](#)

What the Company Does

IT Geeks positions itself as a **Shopify Platinum Partner** and **e-commerce growth expert**, helping businesses:

- Build high-performing **Shopify and Shopify Plus online stores**
- Perform **store migrations** (from other platforms to Shopify)
- Develop **custom Shopify solutions & integrations**
- Provide **UI/UX design, store optimization & maintenance**
- Offer **digital marketing services** including SEO and PPC
- Create mobile applications and custom extensions for e-commerce growth [IT Geeks](#)

Their services are designed to help e-commerce brands **increase visibility, conversions, and revenue on Shopify**. They also highlight real metrics like thousands of stores built and hundreds of successful migrations. [IT Geeks](#)

Employees and Company Size

There are slightly different estimates from professional sources, but the most credible up-to-date data indicates:

- **Company Size:** Approximately **200–500 employees** globally. [LinkedIn+1](#)
- **LinkedIn Profile:** Reports around **233 total employees** on LinkedIn. [LinkedIn](#)
- Staff includes developers, designers, project managers, digital marketers, and support teams. [LinkedIn](#)

 **Founded:** Around **2013** (on LinkedIn and company data). [LinkedIn](#)

 **Note:** Sometimes smaller satellite entities or local branches can show different employee counts — but the primary corporate size according to LinkedIn and hiring platforms is **200–500+**. [SignalHire](#)

Industries and Focus Areas

IT Geeks primarily operates in the **Information Technology & Services** sector with a strong niche in **e-commerce development and digital transformation solutions**. [LinkedIn](#)

They serve clients worldwide — from startups to enterprise brands — and claim thousands of successful e-commerce implementations. [IT Geeks](#)
