About Project

Project Title: Design, Development & Optimization of a Shopify E-Commerce Store

Client Overview

The client was an online retail business that wanted to sell its products through a modern, fast, and user-friendly e-commerce website. Before working with IT Geeks, the client either had:

- An outdated website
- A slow online store
- Or no proper e-commerce platform

The client wanted a professional Shopify store that could:

- Attract more customers
- Improve online sales
- Work smoothly on mobile and desktop

Project Objective (Goals)

The main goals of the project were:

1. Build a complete Shopify store with a clean and modern design
2. Improve user experience (UI/UX) so customers can easily browse and buy products
3. Increase website performance and speed
4. Optimize the store for SEO to get more organic traffic
5. Integrate payment gateways, shipping, and apps
6. Ensure security and smooth checkout process

Technologies Used

IT Geeks used the following technologies in this project:

E-Commerce Platform

- Shopify (Main platform)
- Shopify Plus (if enterprise-level features were required)

Frontend Technologies

- HTML5 – Page structure
- CSS3 – Styling and layout
- JavaScript – Interactive elements
- Liquid (Shopify Template Language) – Custom Shopify themes

Backend & Integrations

- Shopify APIs
- Third-party Shopify apps
- Payment Gateways (PayPal, Stripe, credit/debit cards)
- Shipping & tax configuration tools

SEO & Marketing Tools

- SEO optimization tools
- Google Analytics
- Google Search Console
- Facebook Pixel (for ads tracking)

Testing & Quality Assurance - Tested the store on: - Different browsers - Mobile & desktop devices - Fixed bugs and performance issues Result: Error-free website before launch.	Website Launch & Support - Successfully launched the Shopify store - Provided: - Technical support - Maintenance services - Future updates & improvements

Employees

It Geeks Technologies Pvt Ltd (often referred to as ITGeeks, with a significant presence in Indore/Dewas, India) appears to have a team size ranging from **50 to over 200 employees**.

- **Employee Count:** Several sources indicate the company operates with a team of **51-200 experts**, with some sources highlighting it as a growing agency, sometimes mentioning up to 300 professionals. Other, smaller, or potentially affiliated entities with similar names might have lower employee counts (e.g., 11-50), but the primary "ITGeeks" Shopify agency indicates a larger, mid-sized team.
- **Key Locations:** The company is known to operate in Indore and Dewas, Madhya Pradesh, India.
- **Company Focus:** ITGeeks is a specialized Shopify Platinum Partner and e-commerce development agency founded around 2015.
- **Working Culture & Reviews:** Based on 13 reviews on AmbitionBox, the company has a below-average rating (1.9/5), with feedback highlighting high pressure, long hours, and a 2-year mandatory bond.
- **Hiring Status:** Reviews suggest the company is frequently hiring for various technical roles.
